

# Label Approval Process

# Label Approval Process

1. Label has to meet Endries requirement on dimension.

Length: 4"~6"

Width: 2"~4"

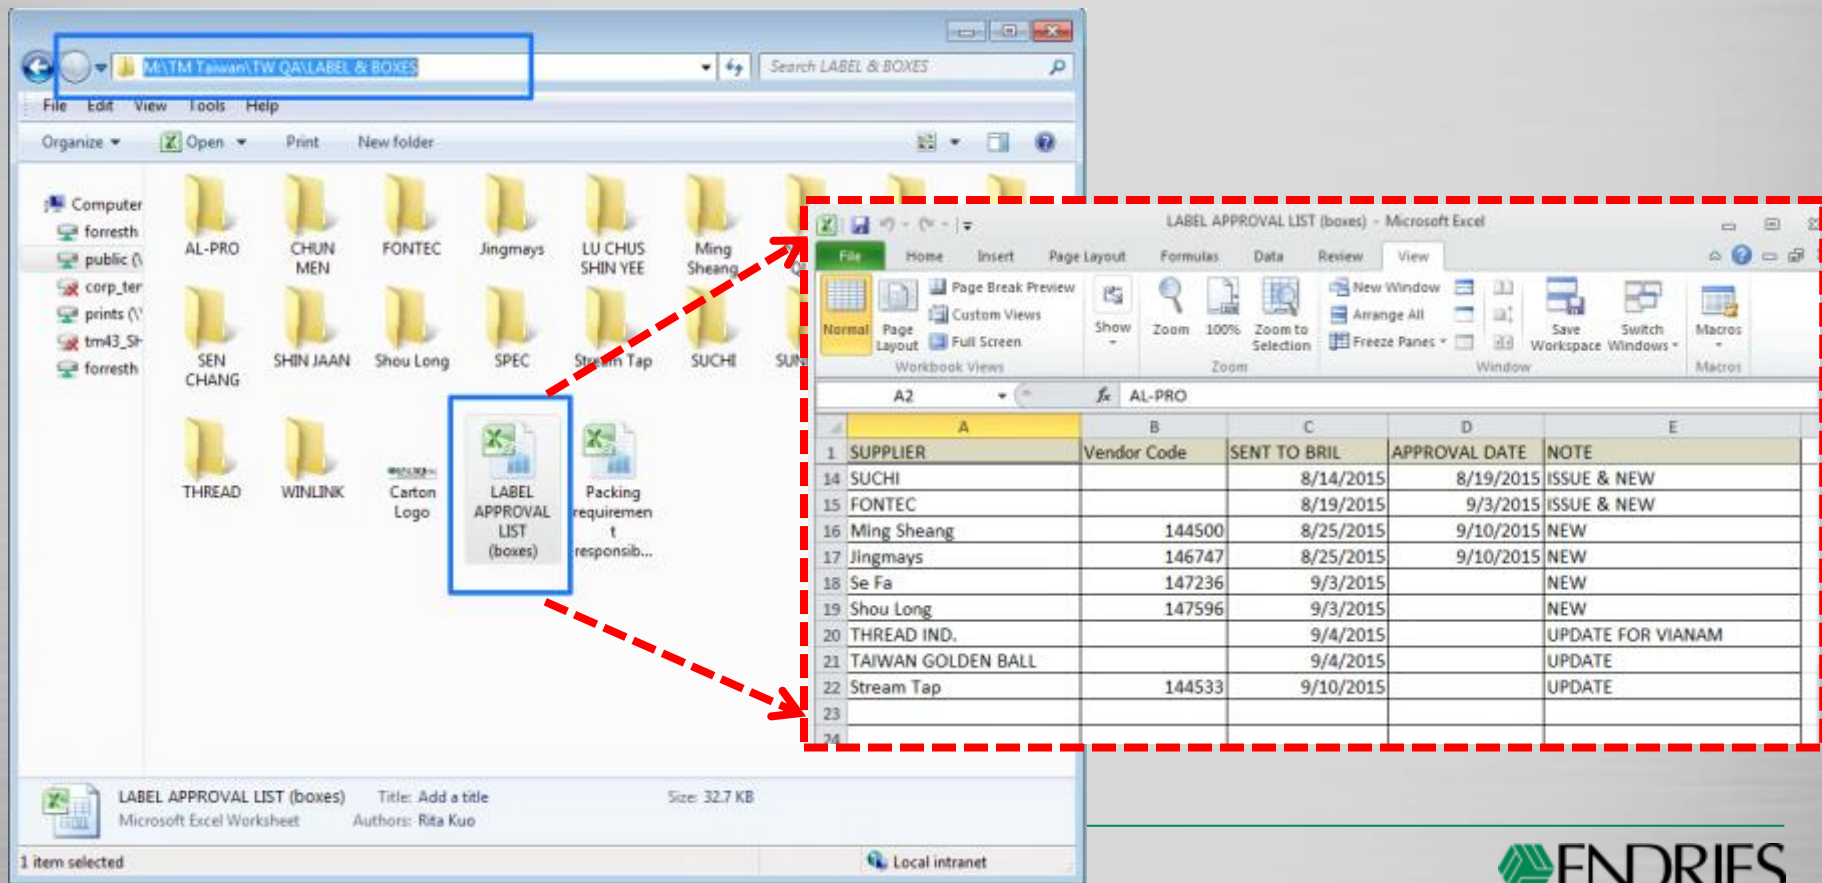

2. B has to meet A, and C has to be CODE 3 of 9.

3. Prod, QTY and LOT# must be successfully scanned on every label.

4. 3 pieces have to be scanned at least.

# Label Approval Process

1. QA team members scan labels on suppliers who are responsible on.
2. QA team members notice suppliers that labels are approved.
3. All approvals are stored and managed in Taiwan folder at M driver.

The screenshot shows a Windows File Explorer window with the address bar set to 'M:\TM Taiwan\TW QALABEL & BOXES'. The folder 'LABEL APPROVAL LIST (boxes)' is highlighted with a blue border. A red dashed box encloses the Excel spreadsheet, and a red dashed arrow points from the folder to the spreadsheet.

**Excel Spreadsheet: LABEL APPROVAL LIST (boxes)**
